

# FENDER PRO REVERB™

# PRO REVERB™

**... All-around performer with plenty power at a moderate price**

Team this amplifier with your Fender electric guitar. There's plenty of power for recording studio or club dates — 70 watts RMS power with 154 watts peak music power delivers positive amplification. Get full-tone reproduction from two heavy-duty, custom-designed 12" speakers. And like many other Fender amplifiers, the Pro Reverb contains authentic built-in reverb, vibrato and the Fender master volume control.
