

Show us a lead guitarist who's never heard a Gibson SG...

... he's got wooden ears, no question. Because Gibson SG's are as widely used as any guitar can get.

Except for the SG1 and SG2. They're brand-new lead guitars with the same long, lean looks and rapid response that you expect from any Gibson solid electrics like the well loved SG Standard and SG Special which have been given a brand-new look and sound.

The prices are right, too. Nicely there in the lower register. So if your pocket won't run to gold-plated pick-ups you can still get real Gibson quality without straining yourself.

Why mess about with a hummer? A genuine Gibson SG makes it all so much easier.

And there's plenty to choose from.
